MEMORANDUM FOR: Executive Director

SUBJECT : Recommendation l.e of the President's
Foreign Intelligence Advisory Board

1. General Recommendation l.e states: "When significant intelligence is reported which subsequently proves to be erroneous, procedures be established for appropriate notification to the recipients of the erroneous information."

2. It is standard practice for the DD/I area for each category of intelligence publications to keep its readers informed of the most up-to-date intelligence judgments on important questions. This includes correcting and bringing up to date previous analyses whenever such action is required. Key officials in the DD/I area are fully aware of this problem and make constant efforts to see that our performance in this regard is fully adequate.
